Excellence in Saskatoon's Housing Industry
Finalists for 25th Annual Bridges Awards

Saskatoon, SK (January 10, 2017) – The Saskatoon & Region Home Builders' Association is pleased to announce this year's finalists for the 25th Annual Bridges Awards. The Bridges Awards celebrate the achievements of SRHBA Members that continue to advance the goals of the residential construction industry and offer quality, affordability and choice in housing to consumers in the Saskatoon Region. Because each company who submits is competing against businesses who have already chosen to hold themselves to the highest levels of quality and professionalism, this is a best-of-the-best competition, and finalists can be confident that they've set themselves apart to both consumers and their peers with truly excellent work.

This year's Bridges Awards are also celebrating an important milestone - 25 years of celebrating excellence in the residential construction industry in Saskatoon & Region. The 25th Annual Bridges Awards Gala on February 11th, 2017 will celebrate not just this year's achievements, but will also reflect on the achievements and impacts that SRHBA members have made to the residential construction industry and to their community over the past quarter century.
